PROFESSIONAL SUMMARY

As a Senior Frontend Software Engineer, I specialise in building innovative, high-performance web applications. My formal training in Computer Systems Analysis at IES University College, complemented by specialised studies in UX/UI and web programming, enables me to architect robust and user-centric solutions.

With a tech stack including **React**, **Vue**, **TypeScript**, **Next.js**, and **Astro**, **Node JS**, I am also expanding my expertise into **LLMs**. I am dedicated to enhancing project architecture, deploying new features, and streamlining workflows via **CI/CD**. My core motivation is to develop scalable, maintainable systems that provide seamless user experiences

PROFESSIONAL EXPERIENCE

Empathy.co | Gijón, España (Remote)

Senior Frontend Software Engineer | May. 2022 – Mar. 2026

- Drove Playboard migration (2025- 2026) Vue→React/Next.js zero-downtime for merchandisers, using AI-assisted development. Enabled parallel feature delivery across internal + client teams.

React • Next.js • TypeScript • Zustand • Tailwind/shadcn • Vitest/Playwright/Storybook • GitHub CI/CD • Copilot/Cursor • Monorepo • Lerna.

- Led front-end squad (2022-24) shipping Playboard features for Kroger digital merchandisers to optimize search + conversions. Drove cross-functional alignment + Clean Architecture for scalable code.

Vue • TypeScript • Vuex • CSS/Sass • Jest/Cypress • GitHub CI/CD • Copilot/Cursor • Monorepo • Lerna.

Capitole Consulting | Madrid, España

Front-end Developer | Sep. 2021 – May. 2022 (Remote)

- Delivered key web features and performance enhancements for Viajes El Corte Inglés, resulting in an improved user experience.

React • Redux • Redux-saga • Jest/Storybook • TypeScript • Monorepo • Lerna. • Sass

Leadtech | Barcelona, España

Frontend Developer | Nov. 2020 – Aug. 2021 (Remote)

- Developed and deployed key web features and performance enhancements for an US passport assistance platform.
- Improve the structure of the project to handle different templates and themes with Sass.

React • Redux • Redux-saga • Jest/Storybook • TypeScript • Gatsby JS • Next JS. • Sass

Global Think Technology | Córdoba, Argentina

Frontend Developer | Jul. 2018 – Aug. 2020

- Developed from scratch an app to handle multiple messages from different apps.
- Developed from scratch an app to track and manage renting cars in realtime.
- Developed hybrid mobile applications using **Apache Cordova** and desktop apps with **Electron**.

React • Redux • Redux-saga • Styled components • Sass • Angular JS • Mongo DB • Leaflet.js • Electron • Apache Cordova.
